

RESULTS OF AGE—APPROPRIATE TRANSITION ASSESSMENTS

SAMPLE STATEMENTS

EDUCATION

- State Criterion—Referenced Test (CRT) results rate students as Novice, Nearing Proficiency, Proficient or Advanced. Current results on (date) show that Tim is Nearing Proficiency in Math, at a Novice level in Reading and at a Novice level in Science.
- Julia is currently passing all classes in her Freshman year apart from English. Her current grades are attached.
- Re-evaluation results on 11/07, using the Wechsler Individual Achievement Test (second edition) show that Tom is reading at a 6th grade equivalent level. Results from the Key Math III assessment on 1/08 show that his math computation skills fall within the average range while he continues to find math problem solving a challenge. A full summary of results is attached.
- Results from the Informal Study Skills Self Report completed in December 2007 show that while Kim's strengths lie in revision strategies and test taking she continues to need extended time to complete her written work in all subjects.

EMPLOYMENT

- Lee hopes to join the military and in 2007 took the services' ASVAB assessment. He is planning to retake this assessment in 2008 with the intention of raising his math scores.
- Jack completed the Employment/Life Skills Assessment with his resource teacher in September 2008. Results reflected his good work quantity and quality skills and the need to increase his ratings for punctuality and presentation.
- In February 2008, Whitney took the Montana Career Information System (MCIS) Interest Survey which showed high scores for social and artistic-related occupations.
- As part of his Youth in the Community Project, Jim completed a Work/Volunteer Experience Summary based on his work experience at the local library. Results show that Jim continues to benefit from consistent supervision in completing tasks.

TRAINING

- In 2008, Tyler passed both his written test and driving test and now holds a driving license.
- Leanna successfully completed a course as a certified baby sitter in March 2008.
- Jason has a part-time job in a local restaurant and in January 2008 passed the test to obtain his Serve Safe Certificate.
- This year Sarah achieved a 75% on her Hunter Education test.
- Lucy has taken a basic course and in February 2008 obtained a First Aid Certificate.
- Karl has participated in the first six sessions of a local Emergency Medical Technician training being held during the 2007/08 school year.

INDEPENDENT LIVING SKILLS

- Results from the Informal Self-Advocacy Rating Scale taken on 9/8/08 show that Joe requires more practice in describing his disability and the implications for future employment.
- Vineland II Adaptive skills assessment results (5/07) show Thomas can converse with others appropriately and uses e-mail. He needs better cooking safety skills and appropriate dressing for weather conditions and social settings.
- Results from the Transition Health Care Assessment (2/08) are varied showing that Sally is able to explain her health condition and understands the implications of it, but limited ability to practically manage and self monitor her diabetes consistently.
- In 9/08, Jason completed the Physical and Mental Health sections of Comprehensive Informal Inventory of Knowledge and Skills for Transition. Results show Jason can recognize warning signs of his depression and continues to need help in actively seeking prompt support from members of his community support team.
